Profile

I own the PUBG Partner Program for PUBG West end to end: around 350 creators (around 280 active in a typical month) across EMEA, Türkiye, CIS, North America and Latin America, on PC and console, across Twitch, Kick, YouTube and TikTok. I partner directly with HQ on programme direction and approvals, and I build the tooling the programme runs on.

Experience

KRAFTON — December 2020 to present

Associate Creator Partnerships Manager, PUBG West — February 2024 to present

Streamer Partnership Coordinator, EMEA — December 2020 to February 2024

At KRAFTON since December 2020, on creator partnerships for the PUBG Partner Program.

- Own the programme end to end across EMEA, Türkiye, CIS, North America and Latin America: creator selection, rules and benefits, quarterly activity audits, campaigns and Partner support.
- Handle Partner contracts and agreements, and scope and negotiate agency work.
- Manage external agencies on campaigns alongside hands-on roster work, and supervise an intern building a consolidated team dashboard and reporting tool.
- Planned and oversaw a 16-creator regional streaming campaign delivered with an external agency, and prepared its social posts and assets: delivered all 64 contracted streams, with viewership and watch hours well above target.
- Ran update campaigns on PC and console. On a recent PC streaming campaign, 89 of 93 participating Partners completed.
- Delivered creator campaigns across multiple regions and languages with HQ, regional, marketing and media teams, agencies and creators.
- Write paid creator campaign plans and submit them to HQ for approval.
- Migrate Partner Hub to KCN and build creator mission campaigns on the new platform.
- Run a set of AI agents that automate campaign operations, reporting and documentation, with a human approval step before anything goes out.
- Rebuilt the Partner data dashboard end to end; it replaced spreadsheet tracking and is now the single source of truth for programme reporting.
- Produce weekly creator sentiment reporting and monthly programme reporting for HQ leadership.
